iAB

International Arab
Baccalaureate

Father Elie Chatawi
Principal of College Patriarchal Beirut
Lebanon

In the process of developing its educational practices, College Patriarchal Beirut (CPB) will adopt the IAB, which is an effective international baccalaureate program in the Arab world. The integration of IAB in the implementation of the national curriculum will provide our students the opportunity to promote 21st century skills and extend their critical and creative thinking capacities. Through the application of research based and project based learning approaches, our learners will stay engaged in the teaching-learning process alongside with an advanced assessment system, which aims to develop a holistic learner with a well-balanced personality and better cognitive, social, and emotional growth. Accordingly and to ensure efficient implementation of the program, CPB is providing professional development opportunities to its teachers and staff in alignment with IAB standards.
